**WHEREAS**, Men's Health Month is part of an ongoing international effort to educate men, boys, and their families about receiving regular disease prevention screenings and living healthier lifestyles; and

**WHEREAS**, Nationwide, life expectancy for men averages five years fewer than that of women, with men experiencing higher rates of health problems such as diabetes, obesity, cancer, heart disease, and premature mortality; and

**WHEREAS**, Men's Health Month is a time for the public to recognize the mental and physical health needs of men and boys while encouraging fathers to be role models for their children through preventive health screenings, healthy living and seeking needed help; and
