RESOLUTION NO. 26-5-28-4
PROCLAIMING

Men's Health Month and Men's Health Week

WHEREAS, Men's Health Month and Men's Health Week are part of an ongoing international effort to educate men, boys, and their families about the importance of preventive health screenings, early detection, and healthy lifestyles; and,

WHEREAS, during this month and week, there are opportunities to recognize the health needs of men and boys, while encouraging fathers and caregivers to serve as positive role models through preventive care, healthy living, and help-seeking behaviors; and,

WHEREAS, men have a life expectancy that is approximately six years shorter than that of women and experience higher rates of chronic diseases; and,

WHEREAS, the growing epidemic of "Deaths of Despair", including deaths related to suicide, substance use disorders, alcohol misuse, and homelessness, underscores the urgent need to raise awareness of unrecognized and undiagnosed depression, mental stress, and emotional distress among boys and men.
